

DIRECTORY  
OF THE  
INHABITED ALLEYS  
OF  
WASHINGTON, D. C.

1912

**DIRECTORY OF ALLEYS  
WASHINGTON, D. C.**

COMPILED UNDER THE DIRECTION  
OF DR. THOMAS JESSE JONES  
CHAIRMAN OF HOUSING COMMITTEE  
MONDAY EVENING CLUB

PRINTED THROUGH THE GENEROSITY  
OF MRS. MEDILL McCORMICK,  
MRS. WILLIAM BELDEN NOBLE AND  
MRS. JOHN VAN SCHAICK, JR. : :

WASHINGTON : 1912.

F203

.7

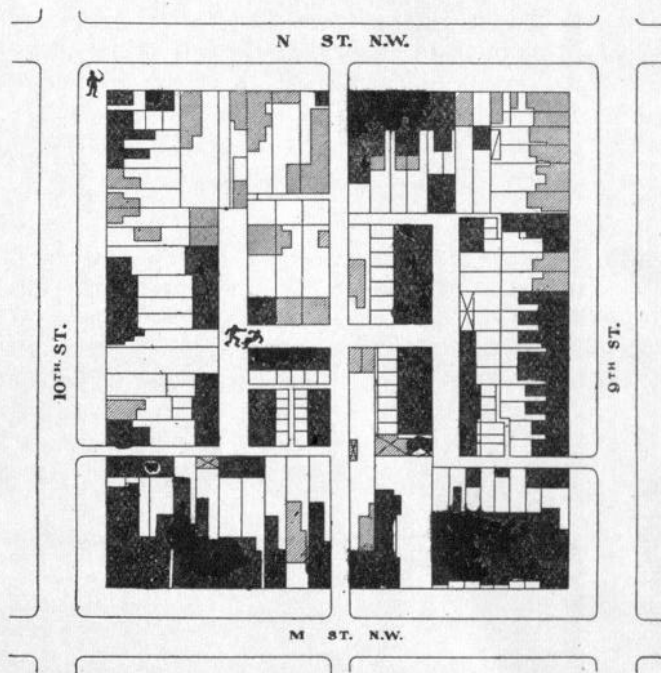

AIM7

G. O. S. Nov. 6, 2

There are in Washington 275 blocks which have inhabited alleys. These alleys contain 3,337 dwelling houses and approximately 16,000 inhabitants.

**THE  
BLIND ALLEY OF WASHINGTON, D.C.  
SECLUSION BREEDING CRIME AND DISEASE  
to kill the alley inmates and infect the street residents.**

Conversion into minor streets is the effective remedy for the larger alleys.

Complete elimination of dwelling houses is the cure for the smaller alleys.

## INTRODUCTION

---

The term "alley" as used in this directory is any passageway or thoroughfare within the block, less than 40 feet in width, which has at least one dwelling facing upon it. In any case where the passageway is over 40 feet wide, it is still regarded as an alley provided it does not extend straight through the block from one street to another.

### Distribution of Alleys.

There are 275 of these interior courts in the city. They contain 3,337 houses used for dwellings and approximately 16,000 persons. They are so widely distributed throughout the city that even the best residential sections are not free from their evil influences. The Northwest, the largest of the four general sections of the city, has 161, or nearly three-fifths of all the alleys.

The statement which follows shows the number of alleys and alley-houses for each section of the city.

Section	Alleys	Houses
Total	275	3,337
Northwest	161	1,940
Southwest	58	705
Northeast	30	336
Southeast	26	356

The average for each alley is 12.1 houses and 58.1 persons. Each alley-house has an average of 4.8 persons. Of the 275 alleys there are:

88 that contain from 1 to 4 houses each  
 70 that contain from 5 to 9 houses each  
 34 that contain from 10 to 14 houses each  
 24 that contain from 15 to 19 houses each  
 36 that contain from 20 to 29 houses each  
 23 that contain from 30 or more houses each.

### Condemnation of Alley Houses.

By an Act of Congress, approved in May 1906, there was created "The Board for the Condemnation of Insanitary Buildings in the District of Columbia." This Board consists of the Assistant to the Engineer Commissioner in charge of buildings, the Health Officer, and the Inspector of Buildings. Up to the middle of 1911 only 582 of the alley houses had received the attention of this Board, and of these only 375 had been eliminated.

A full statement of the number of alley houses examined, repaired, and demolished by the Condemnation Board during the five years since its creation is given below:

Year	Number of Alley Houses		
	Examined	Repaired	Demolished
Total	582	315	375
1907	175	33	89
1908	156	64	124
1909	79	50	52
1910	94	97	68
1911	78	71	42

### Alley Legislation.

In addition to the Condemnation Act described above, the most important alley legislation in force at the present time is that which prohibits the erection of dwellings in alleys. This law has been in force since July 22, 1892. It provides: "That from and after the passage of this act it shall be unlawful to erect or place a dwelling house on or along any alley in the District of Columbia where such

alley is less than thirty feet wide and is not supplied with sewerage, water mains, and light: *Provided*, That no dwelling house hereafter erected or placed in any alley shall in any case be located less than twenty feet back clear of the center line of such alley, so as to give at least a thirty-foot roadway and five feet on each side of such roadway clear for a walk or footway, and that it shall be unlawful to erect or place a dwelling house on or along any alley which does not run straight to, and open at right angles upon, one of the public streets bordering the square in which such alley is located, with at least one exit fifteen feet in the clear."

Other important sections taken from the District Code are:

"Section 1608. That the Commissioners of the District of Columbia be, and they are hereby, authorized to open, extend, widen or straighten alleys and minor streets in the District of Columbia under the following conditions, namely: First, upon the petition of the owners of more than one-half of the real estate in the square or block in which such alley or minor street is sought to be opened, extended, widened, or straightened, accompanied by a plat showing the opening, extension, widening, or straightening proposed; second, when the Commissioners deem that the public interests require such opening, extension, widening, or straightening; third, when the health officer of said District certifies to the necessity for the same on the grounds of public health. *Provided*, That a minor street shall be of a width of not less than forty feet nor more than sixty feet, and shall run through a square or block from one street to another.

"Sec. 1608a. That if in the opening, extension, widening or straightening of an alley or minor street, or in the extension or widening of public streets or highways, an alley or part of an alley may have been, or may hereafter be, in the judgment of the said Commissioners rendered useless or unnecessary, said Commissioners are authorized to close the same. That if the alley to be closed is an original

alley, they may sell the land contained therein for cash at a price not less than the assessed value of contiguous lots. That if the alley is not an original alley, the title thereto along any alley in the District of Columbia where such shall revert to the owners of the land abutting thereon, but all such land shall be subject to the assessment for benefits hereinafter referred to. \* \* \* \* \*

"Sec. 1608c. That the Commissioners are authorized to close any alley or part of alley the width of which is less than ten feet upon the application in writing of the owners of all the abutting property. If the title to such closed alley is in the United States, the land shall be sold, as provided in Sec. 1608a hereof; and if the title is not in the United States, the land shall revert as provided in said section.

#### Health Conditions in Alleys: 1910.

According to the 1910 Report of the Health Officer for the District, the alley death-rate far exceeds the street death-rate. This is most noticeable in the case of infants. The following comparison of deaths in 1909, for streets and alleys, and according to age periods, shows that more than a third of the alley children die under one year of age.

Age	Death-rate per 1,000	
	Alleys	Streets
All ages	30.09	17.56
Under 1 year	373.49	158.66
1 to 4 years	30.82	16.75
5 to 20 years	7.84	5.25
Over 20 years	27.05	18.08

The four principal causes of death in 1909, and the death-rates per 100,000 from each, in streets and alleys, are given in the next table for white and colored separately.

### Death Rate per 100,000 of Population.

Cause of death	White		Colored	
	Alleys	Streets	Alleys	Streets
Pneumonia	310.9	117.9	432.8	188.1
Tuberculosis	186.5	121.2	621.3	433.7
Whooping Cough	62.2	5.3	21.9	15.6
Diarrhoea (Under 2 years)	62.2	36.8	321.6	137.8

### The Monday Evening Club.

The Housing Committee of the Monday Evening Club has made a study of the alley problem and has outlined the following program:

**I. VISITATION AND INSPECTION** of the alleys by church volunteers, social settlement workers, and all other social agents. Those who wish to assist in the improvement of the alley conditions may consult with the following:

1. Miss Emma Duke, 1422 N St., N. W., for inspection cards.
2. Associated Charities, 923 H St., N. W., for Penny Provident Stamp Routes or Friendly Visiting.
3. Housing Committee, 923 H St., N. W., for Stereopticon Lectures and further information.

### **II. THE PUBLICATION OF INFORMATION CONCERNING ALLEYS:**

1. Alley and Map Directory, showing number and location of alleys, and number of houses in them.
2. Statistics of houses, families, boarders, sex and age groups, illiterates, occupations, birth-place, color and nationality of alley residents.
3. Selections from Report of President's Homes Commission describing typical homes and alleys.
4. Statistics from Report of Health Officer giving com-

parative death-rate for streets and alleys, infant mortality, causes of death, and other facts.

III. THE RECOMMENDATION OF LEGISLATION requiring the elimination of all inhabited alleys by converting them into minor streets, and providing such other remedies as investigation may indicate to be required.

## PART I.

### Section and Street Classification.

In this part of the directory all the alleys are given according to tiers of blocks in which they are located, for each section of the city. It is designed for the special use of those who wish to visit the alleys in a systematic manner.

## PART II.

### Alphabetical Index.

This list contains all the known names of inhabited alleys. Wherever more than one name applies to the same alley a cross-reference indicating that fact is given. Reference to the block number is always necessary in order to determine whether the alley has more than one name, or whether the same name applies to more than one alley.

Name of Alley	Boundary of Alley Block	Block No.	No. houses
A.B.C. Alley, N.W.	See Rovers Court,	559	
Abners Court, S.E.	9th, 10th G and I	950	7
